

MEST

We present the future of
Streaming platforms and
audiovisual productions, **MEST**
is a project where you can be a
user or a creator, and benefit
from both ways.

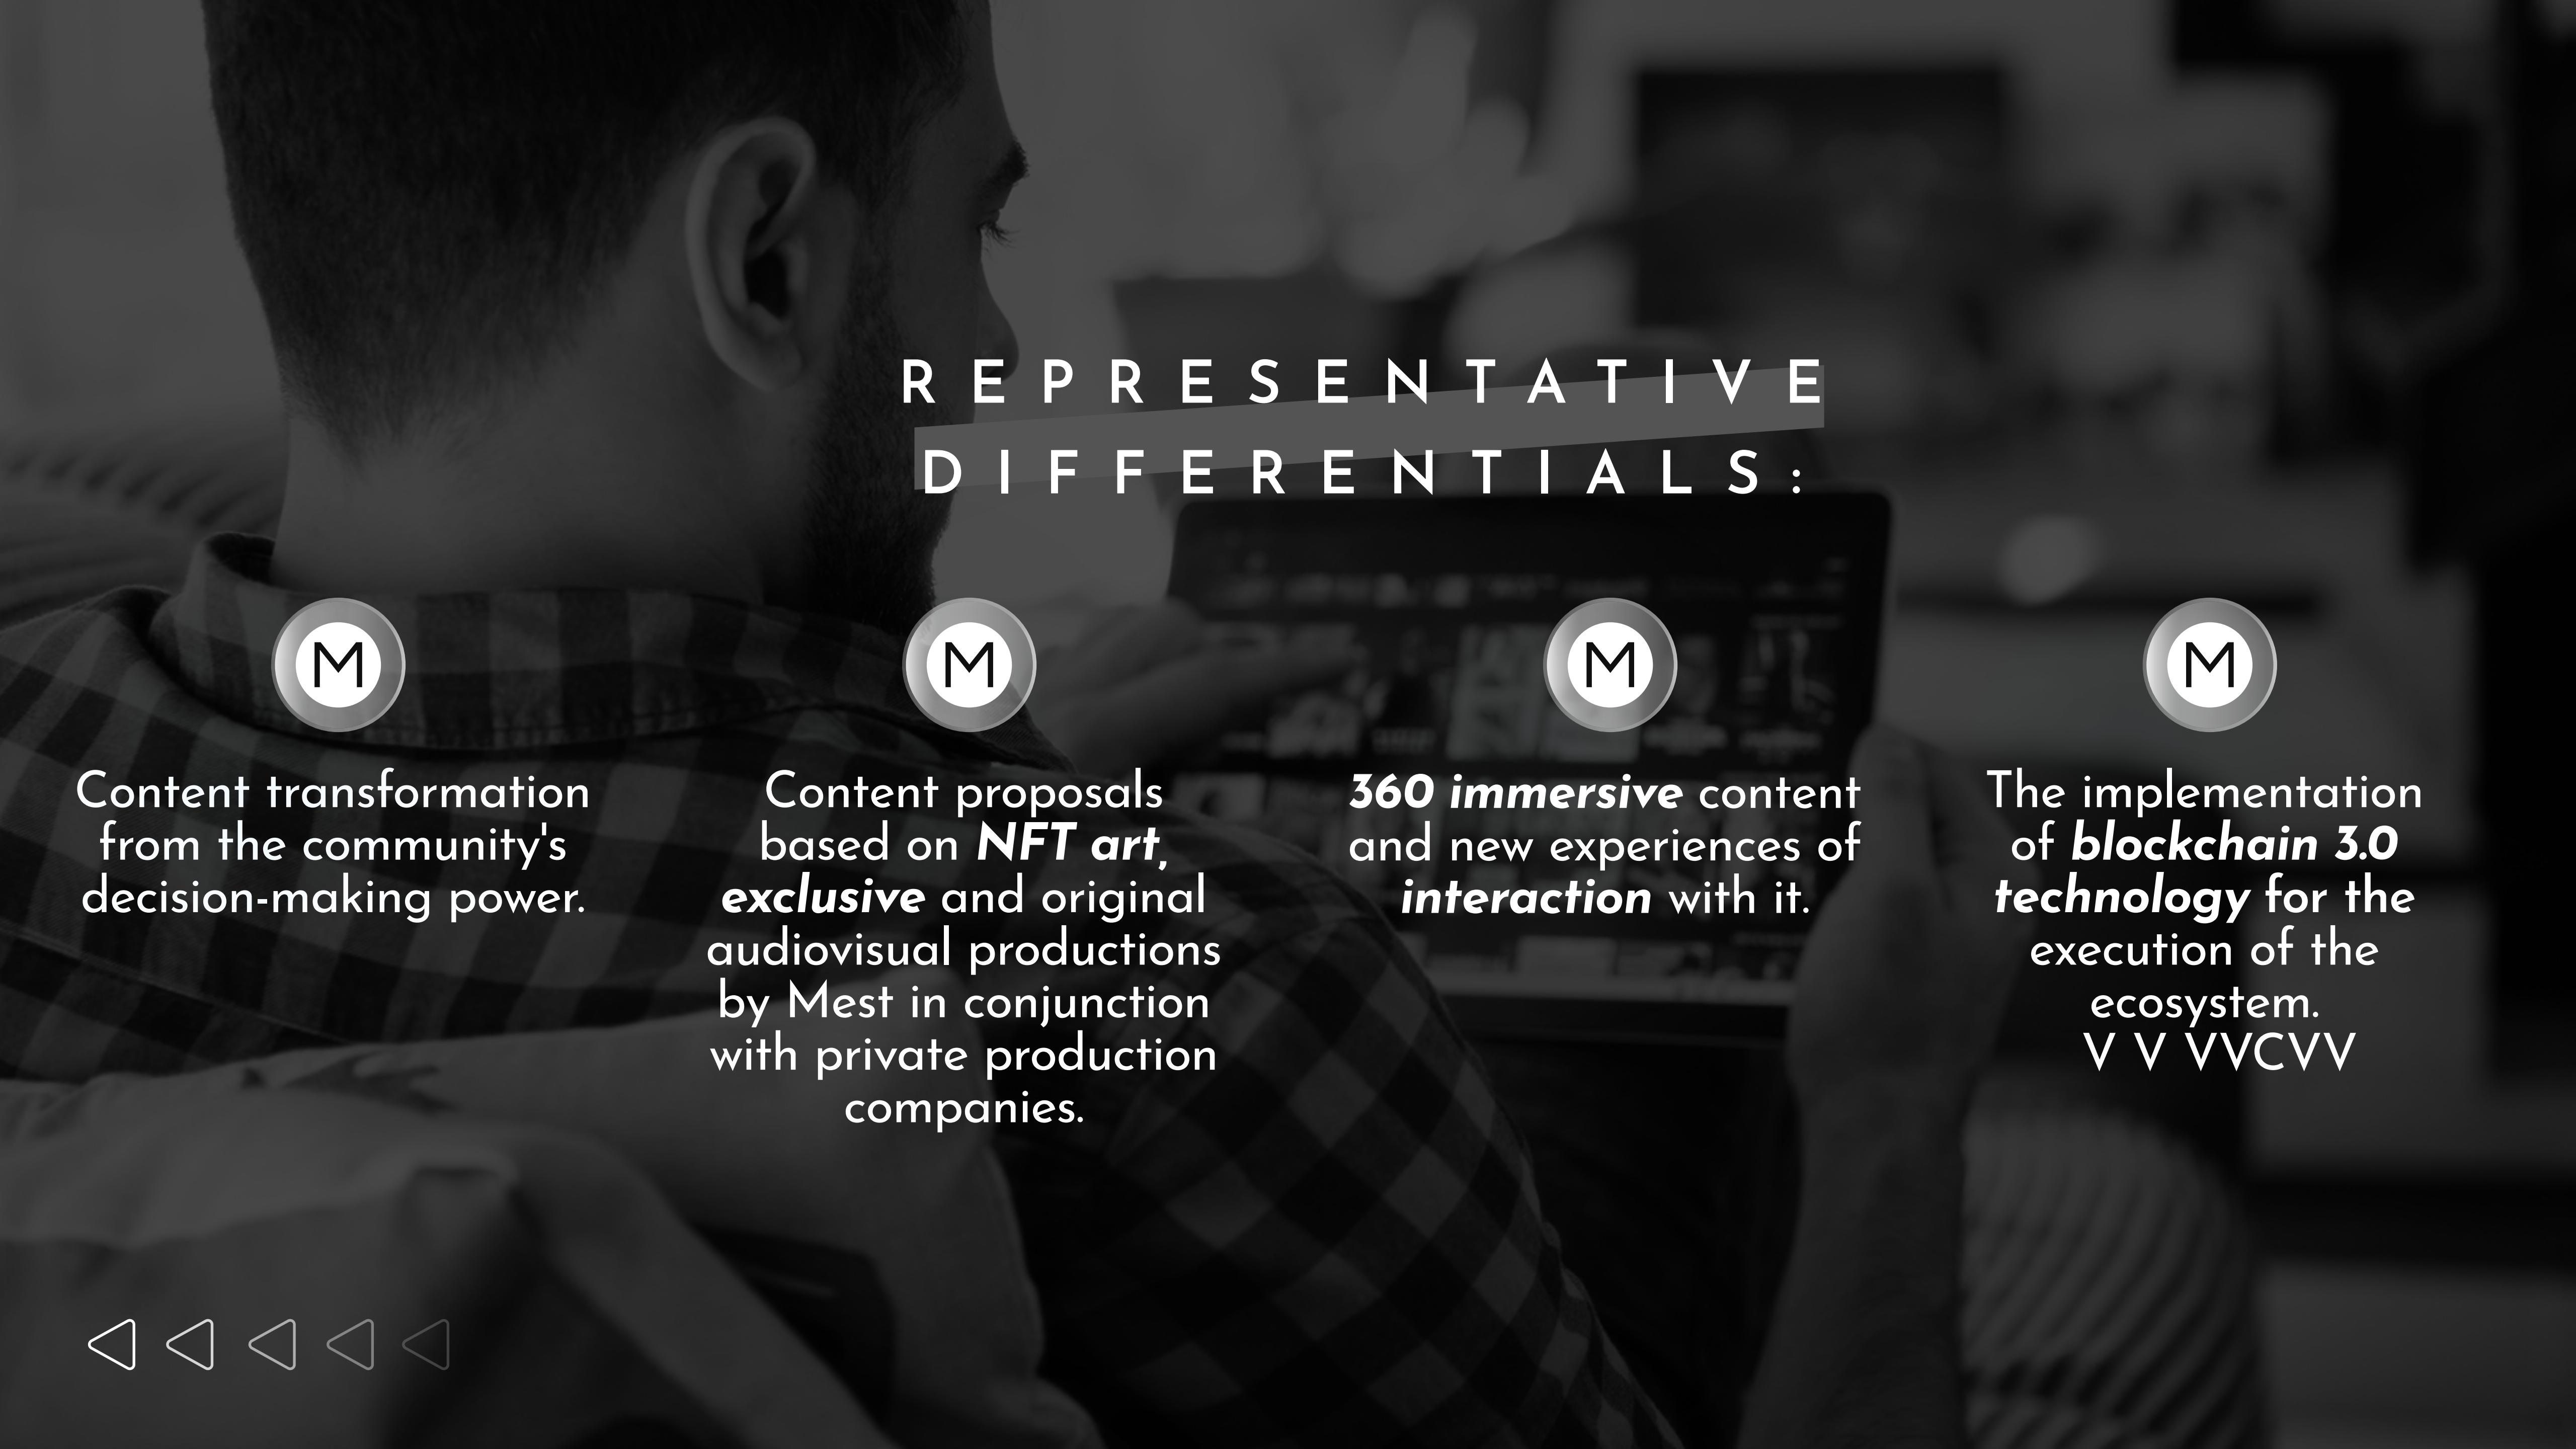

MEST

VISION

Transforming the streaming industry
and the way we consume content today.

Focused on the application of new technologies that allow us to connect, create and earn in a different way.

REPRESENTATIVE DIFFERENTIALS :

Content transformation
from the community's
decision-making power.

Content proposals
based on **NFT art**,
exclusive and original
audiovisual productions
by Mest in conjunction
with private production
companies.

360 immersive content
and new experiences of
interaction with it.

The implementation
of **blockchain 3.0**
technology for the
execution of the
ecosystem.

MEST | DEVELOPMENT
PHASES

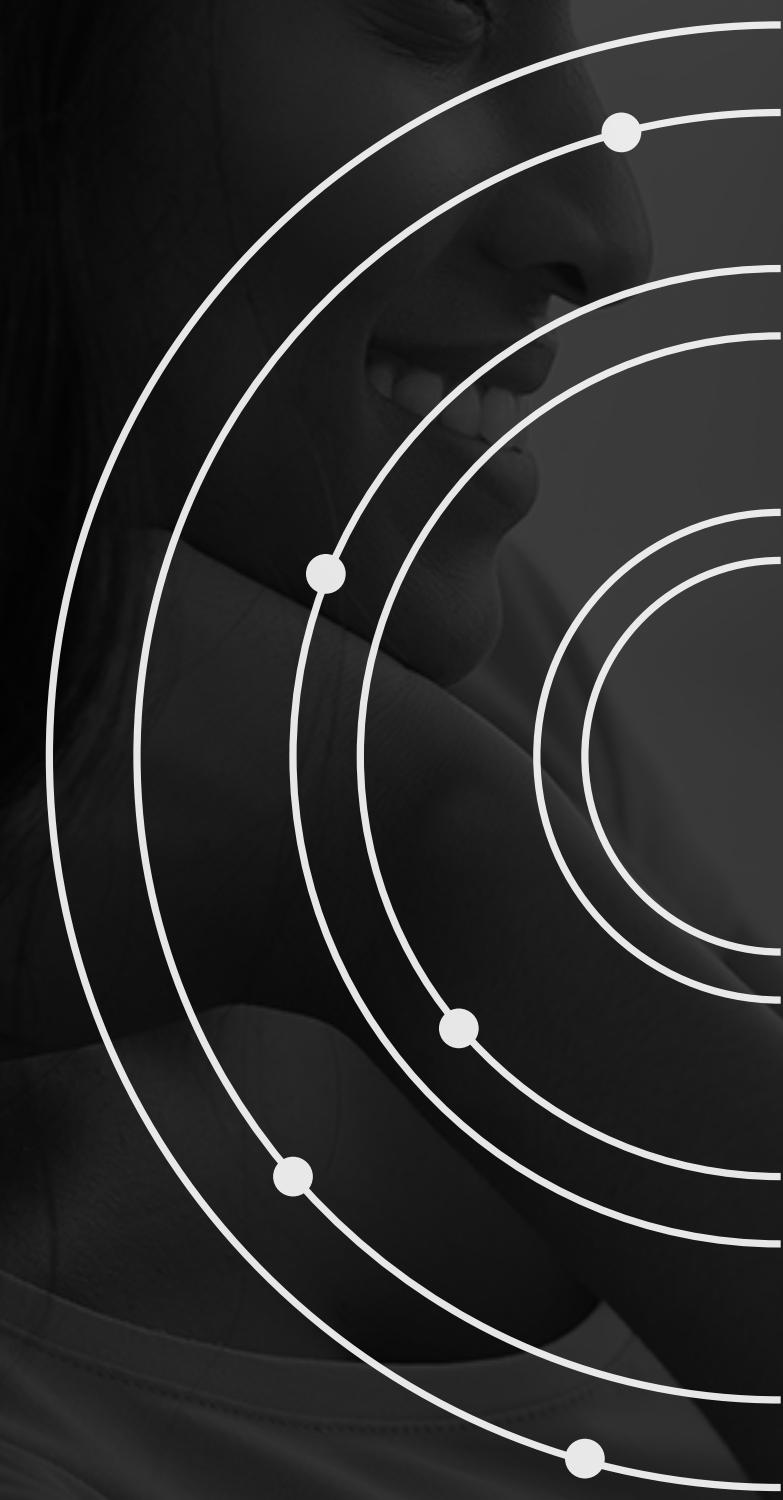

MEST

PHASE
ONE

01

A black and white photograph of a woman with long dark hair, seen from the side and slightly from behind. She is looking down at a smartphone held in her hands. The phone's screen is visible, though its content is not legible.

PHASE
ONE

EARLY ADOPTERS LAUNCH

A collection of
12.000 pieces

will be created initially for the capitalization of the project, each holder will become a partner of **MEST** acquiring a global % and unique benefits.

25%
of the profits
generated by the ecosystem.

EARLY ADOPTERS

BENEFITS

Lifetime membership to
the platform in all its phases.

Belong to the DAO that will be
counted on for the development of
voting in each new proposal provided
by the ecosystem.

WL in all projects
generated within the platform.

Participation in exclusive giveaways of immersive elements for the metaverse (VR glasses, haptic suits, among others).

Pool with **benefits from 0.5% to 1%** variable for 36 months on the invested amount.

EARLY ADOPTERS

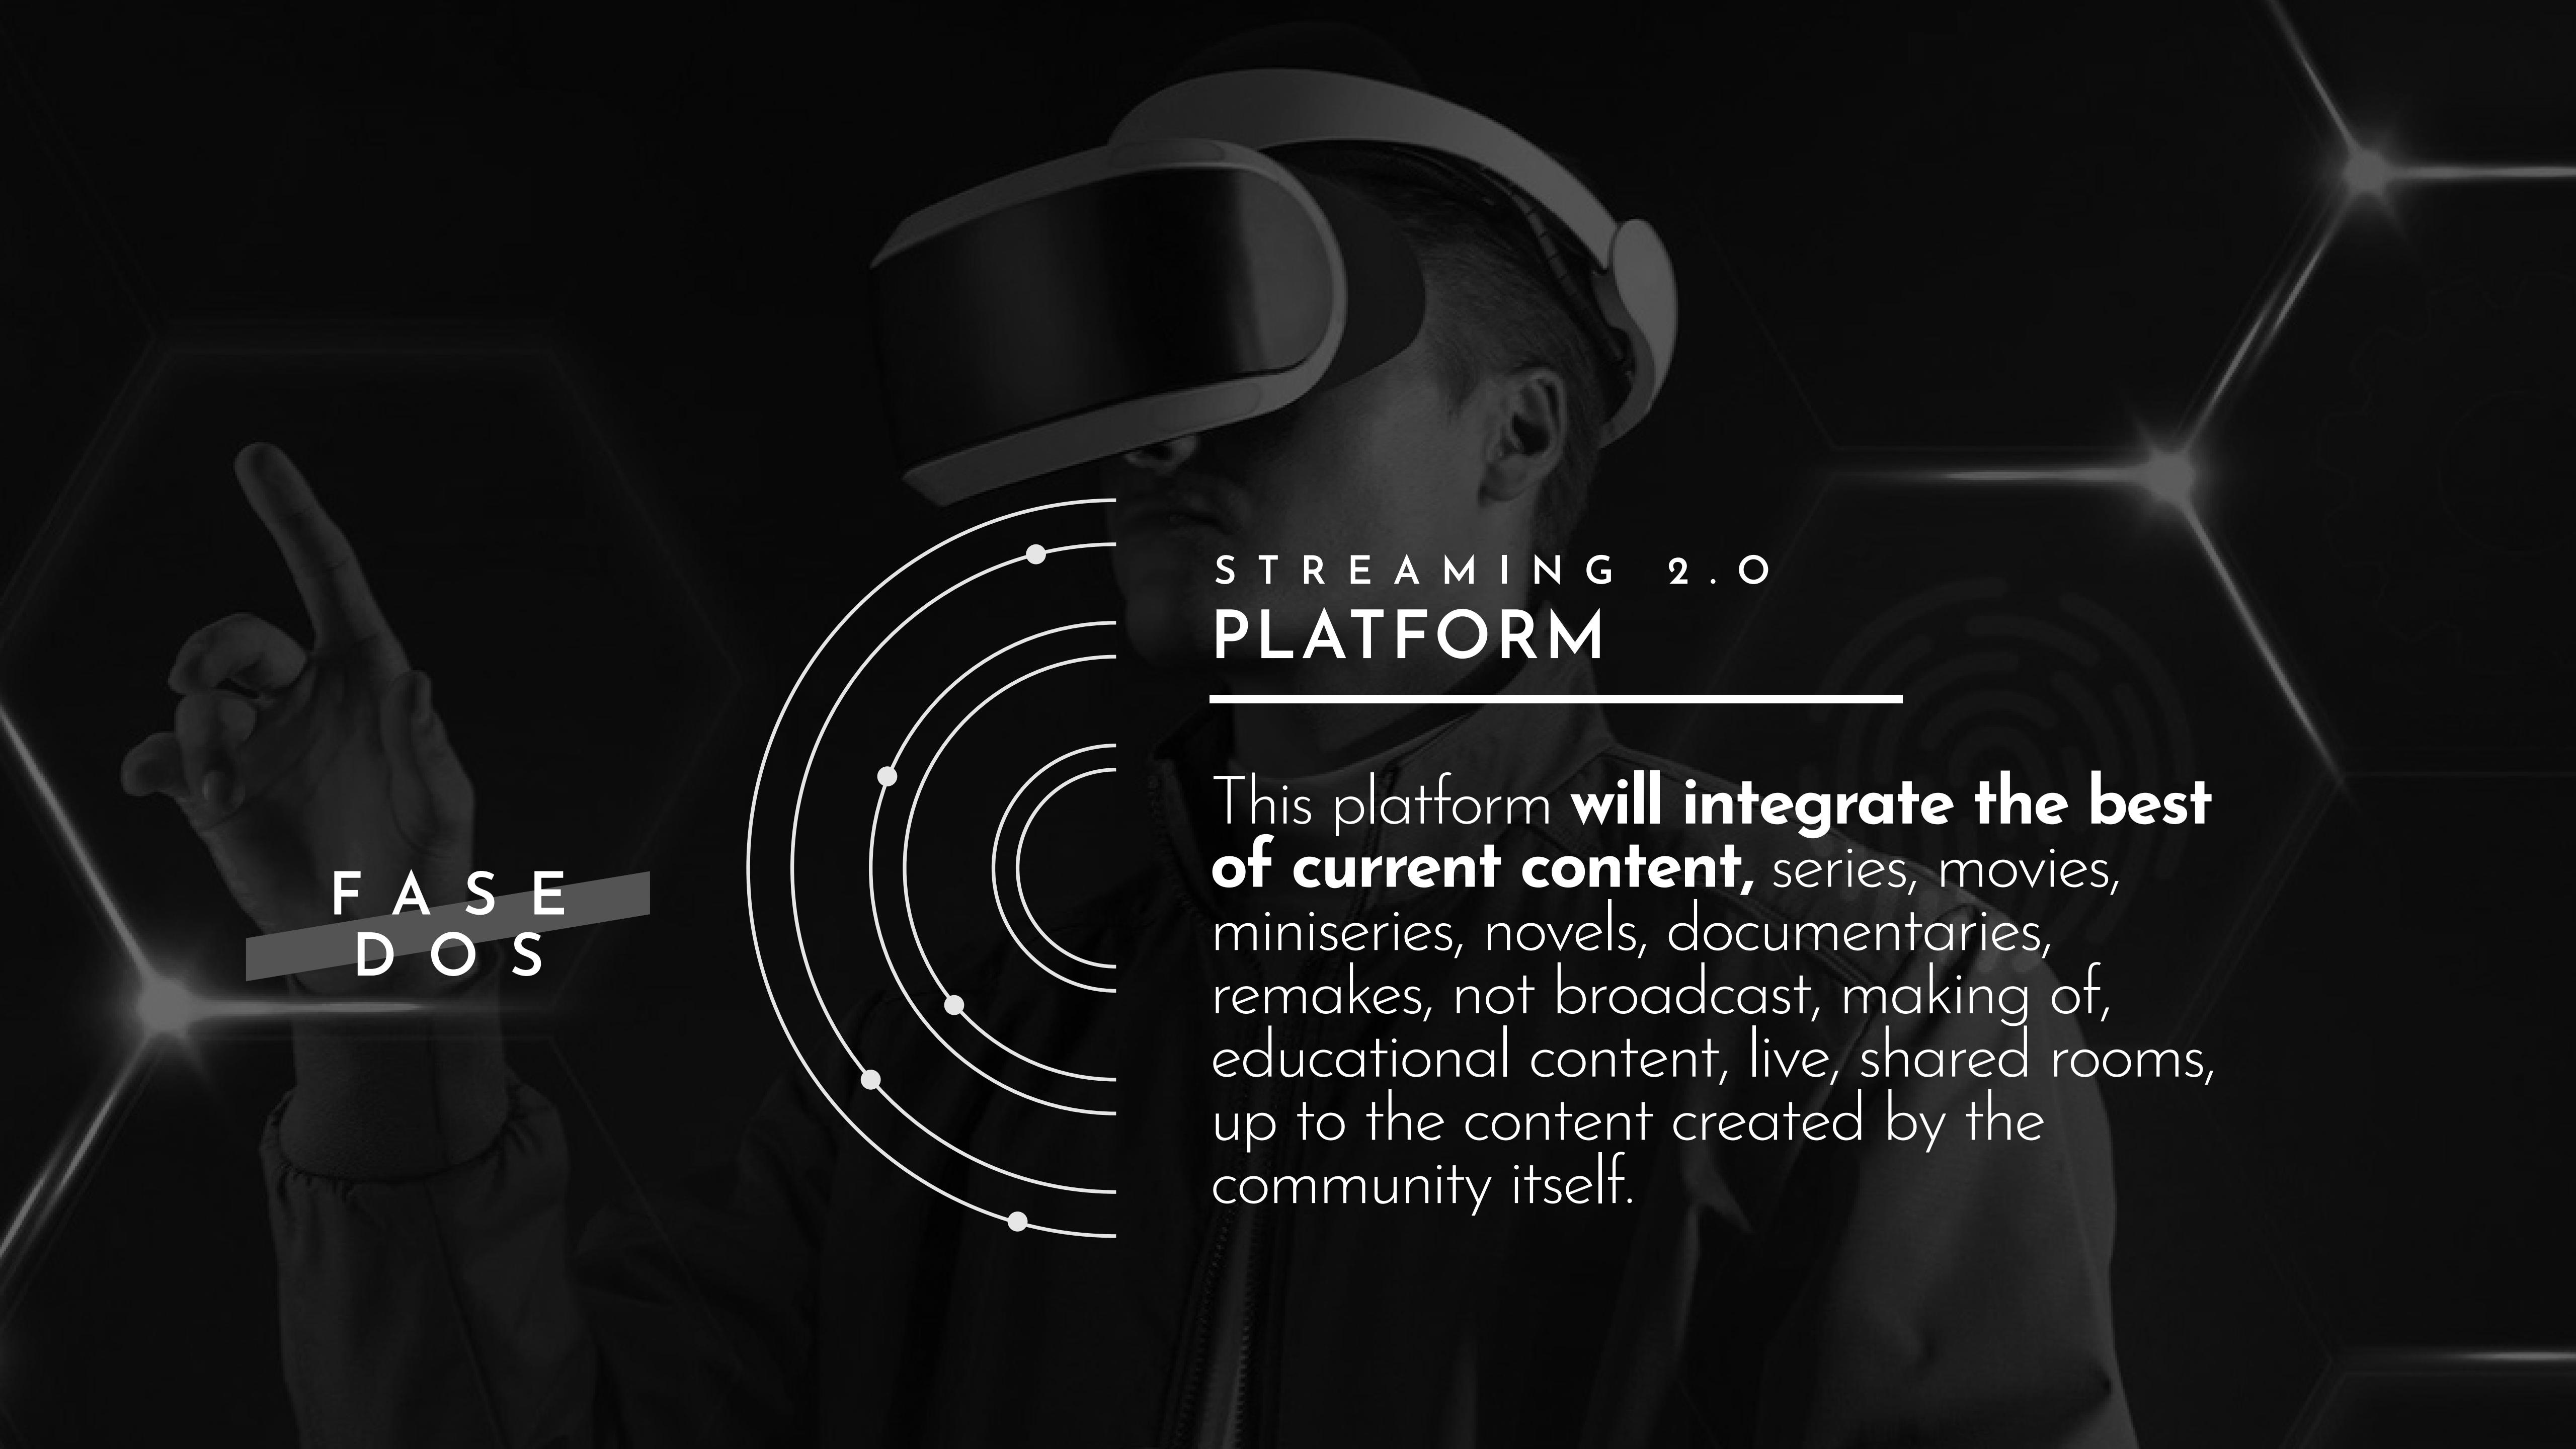

BENEFITS

Airdrops of new projects developed by **VI-AIN**.

Cinema in the **Metaverse**.

MEST

PHASE
TWO

F A S E
D O S

STREAMING 2.0 PLATFORM

This platform **will integrate the best of current content**, series, movies, miniseries, novels, documentaries, remakes, not broadcast, making off, educational content, live, shared rooms, up to the content created by the community itself.

A black and white photograph of a person from the chest up. They are wearing round-rimmed glasses and a dark-colored hoodie. Their hands are clasped together in front of them, and they appear to be looking down at something, likely a laptop screen which is partially visible at the bottom. The background is a plain, light color.

CREATOR

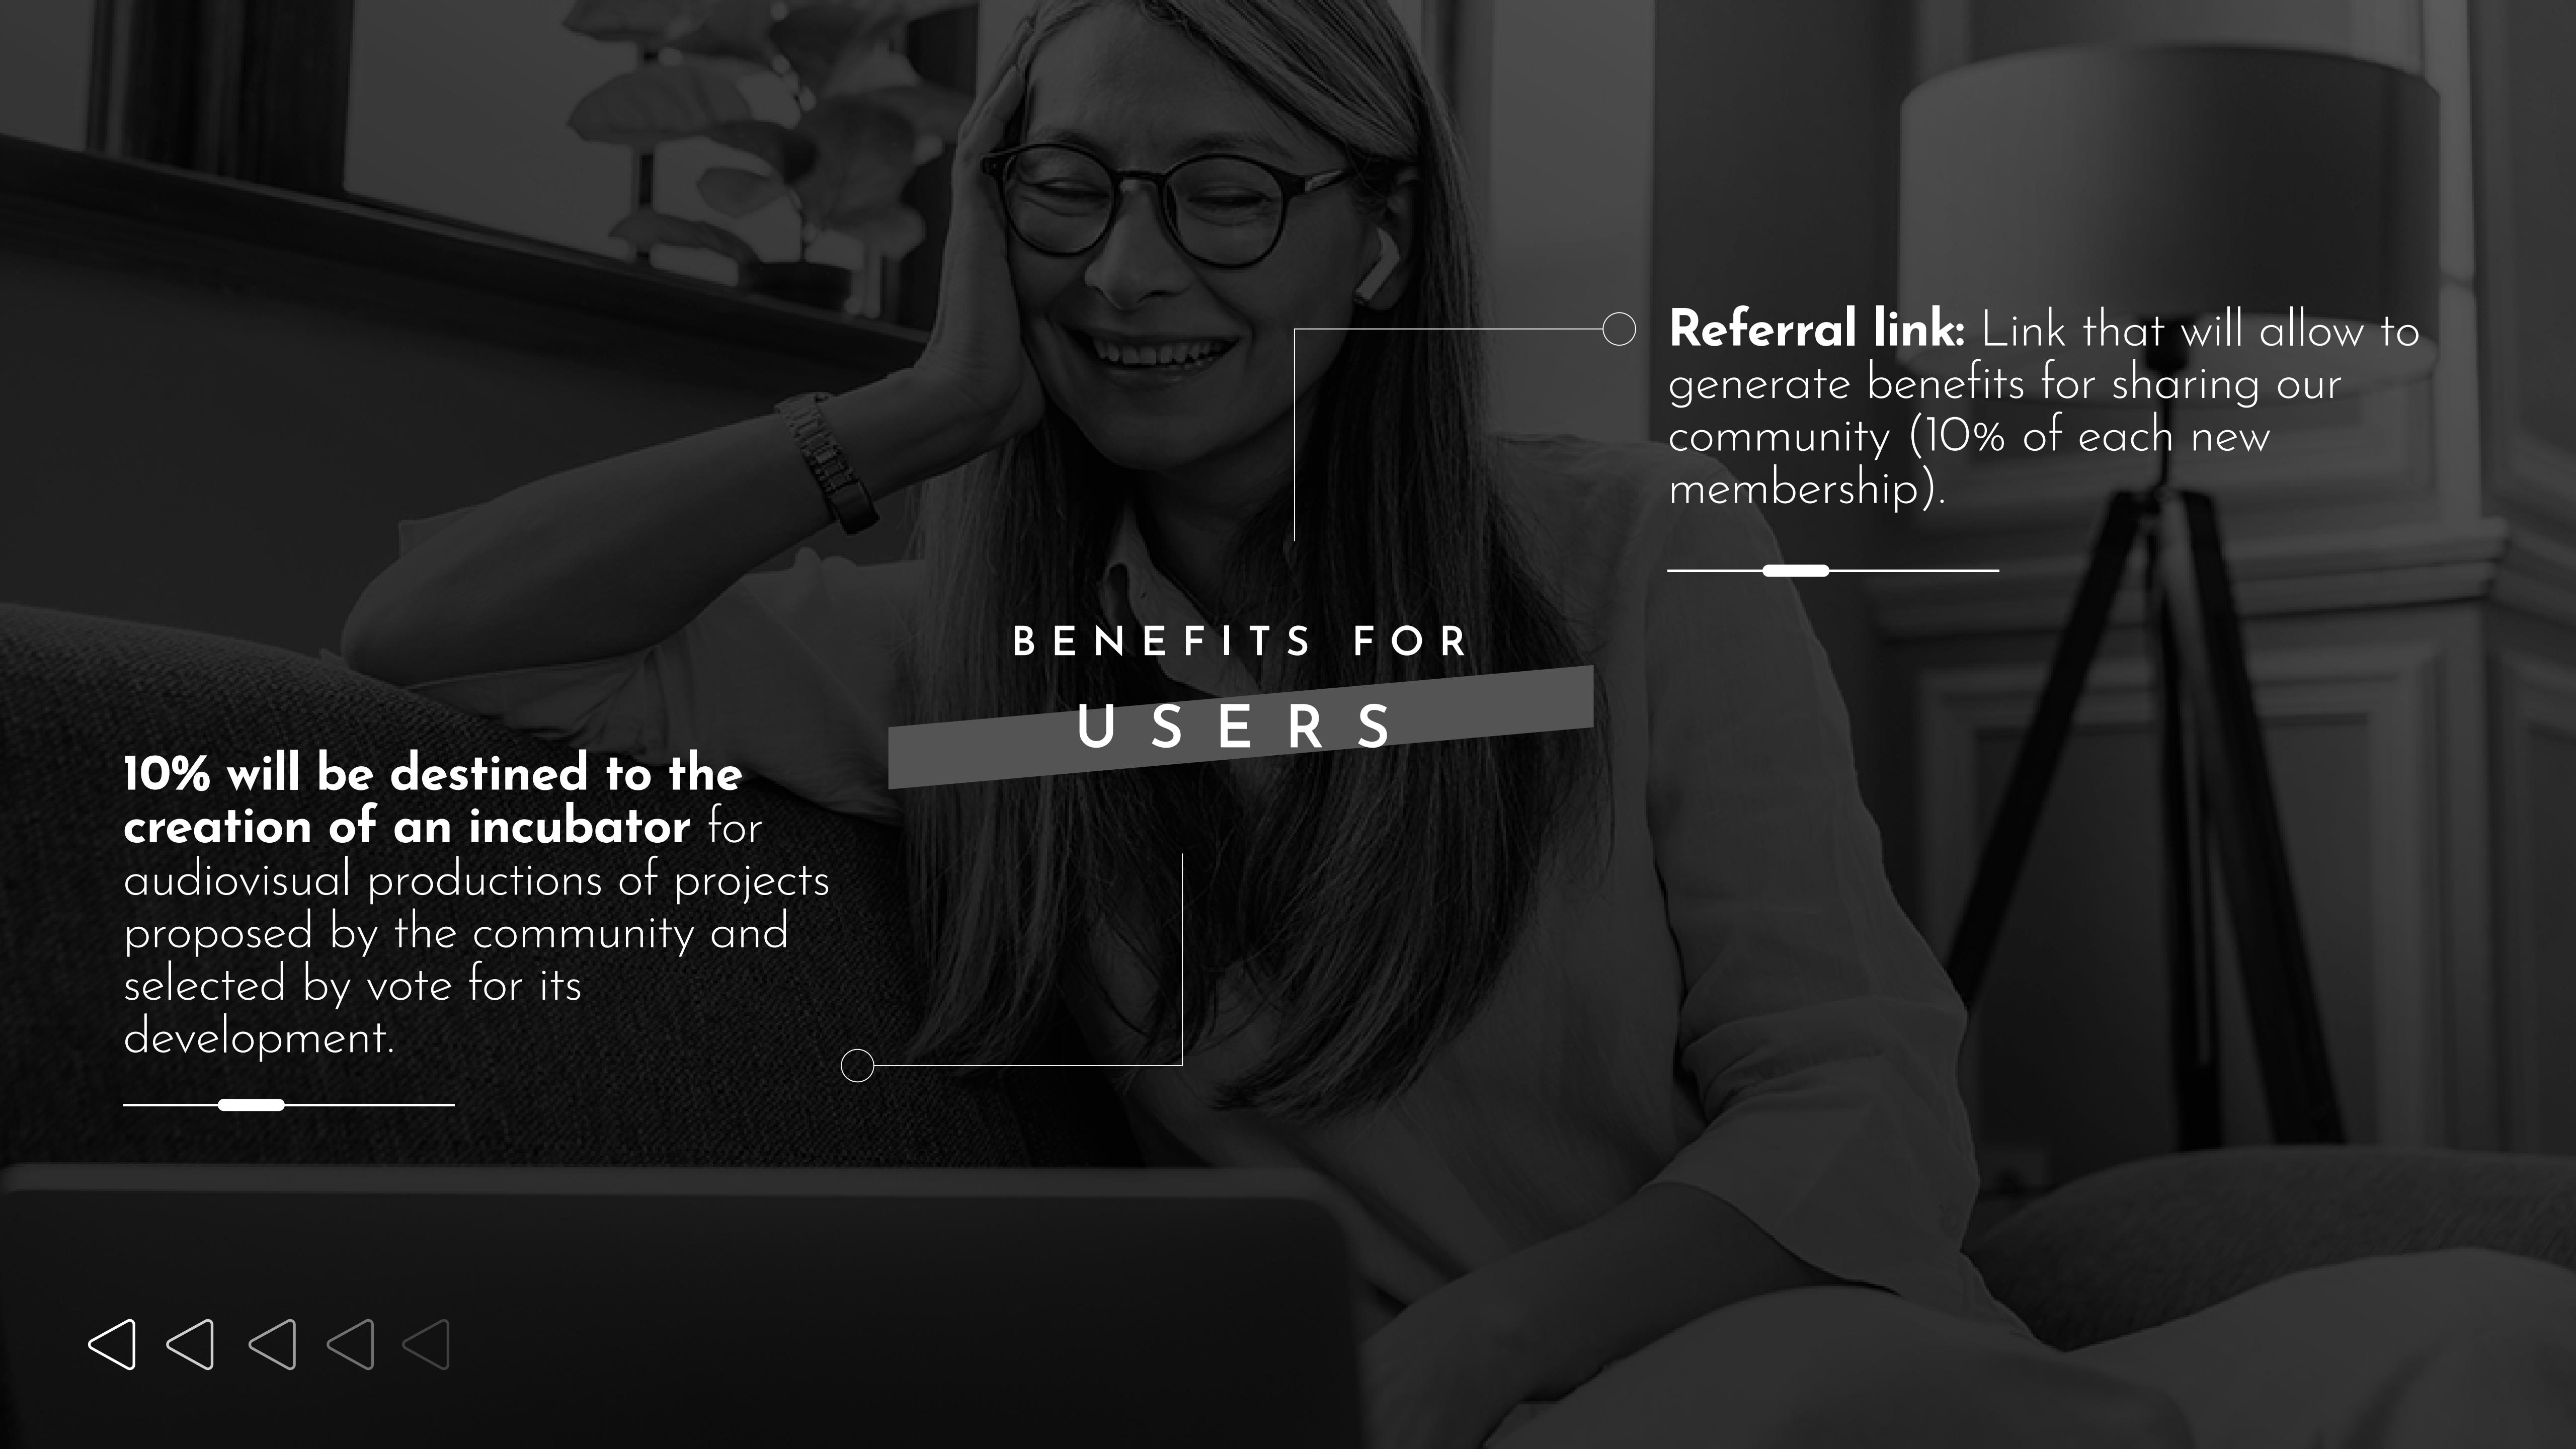

BENEFITS

15% **of the profits** will be destined to compensate the content within the platform as follows:

The money will be distributed percentage wise according to the amount of views that each creator has generated month after month.

Each creator will obtain an NFT that will give him/her the identity of creator and will allow him/her to be within this category, and receive the corresponding payment generated through the smart contract.

10% will be destined to the creation of an incubator for audiovisual productions of projects proposed by the community and selected by vote for its development.

BENEFITS FOR USERS

Referral link: Link that will allow to generate benefits for sharing our community (10% of each new membership).

ADVERTISING

Mest will allow an advertising plan that will be filtered by the DAO

the community will decide which companies may or may not advertise within the platform,

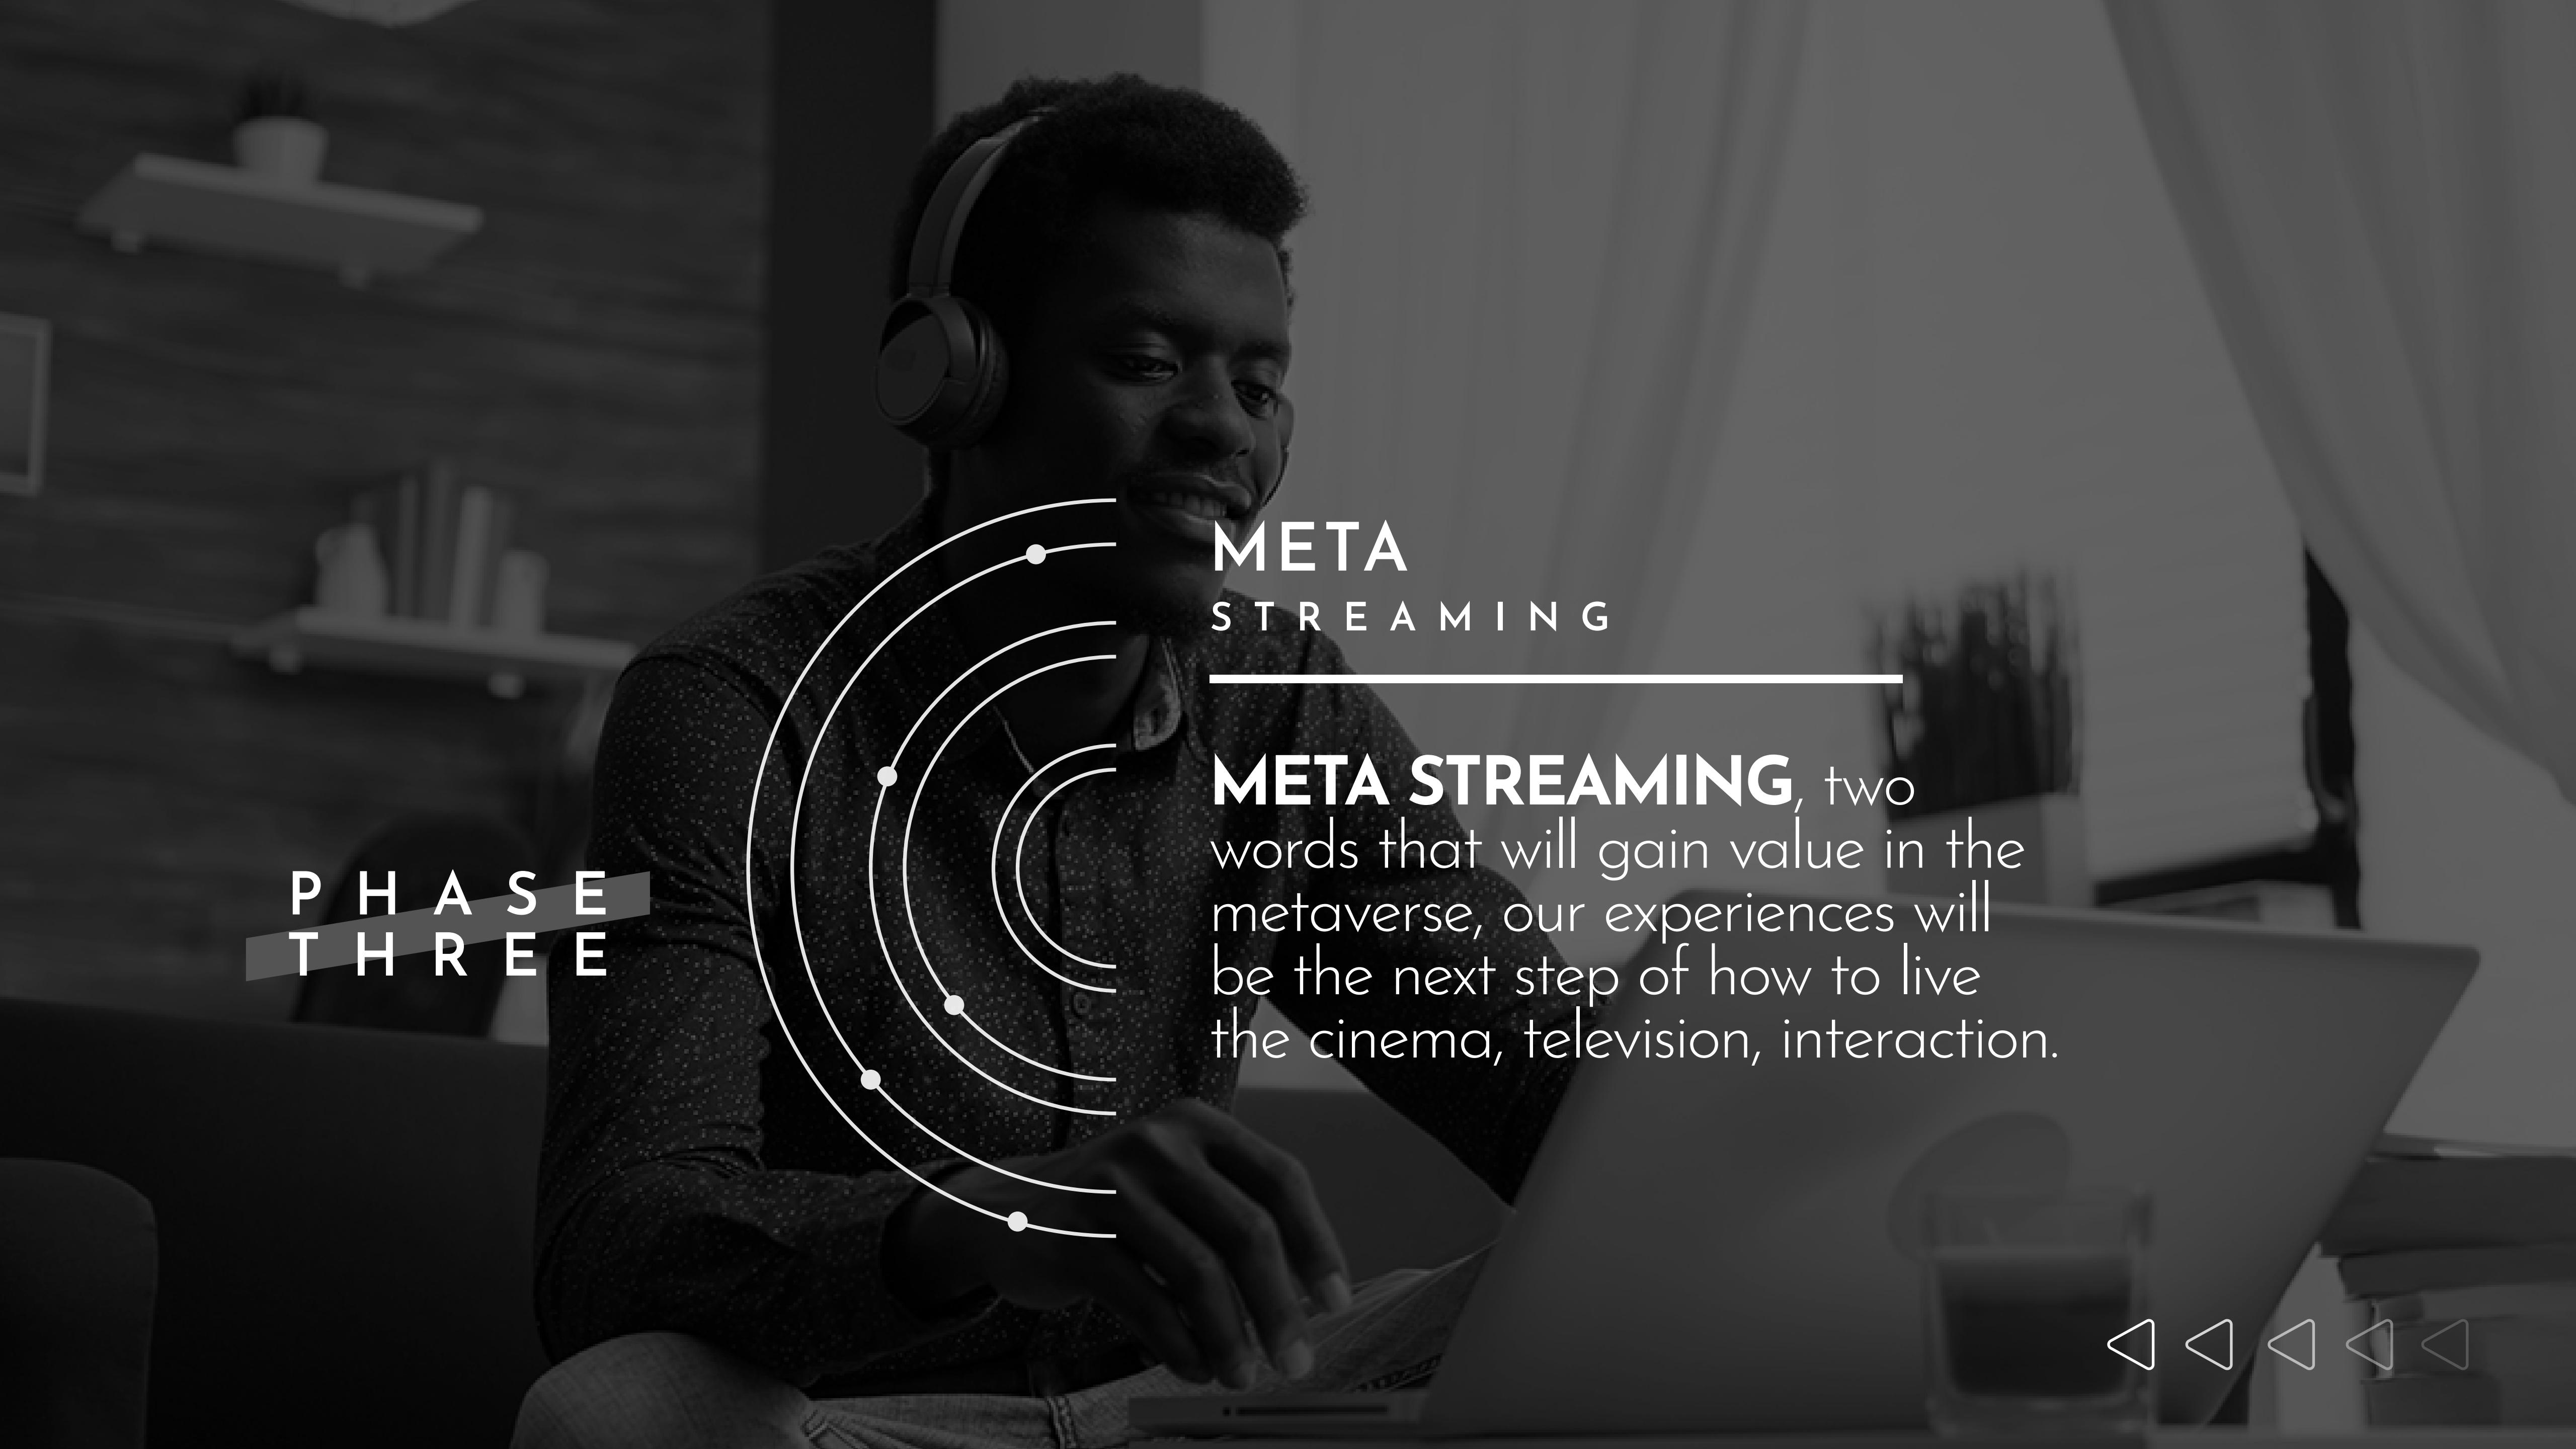

50% of the benefits will be shared among all users who see advertising.

We will take the utmost care that **advertising is not invasive or unwanted.**

MEST

PHASE
THREE

OZ

A black and white photograph of a man wearing over-ear headphones and a VR headset. He is looking down at a screen, possibly a laptop or a VR display. The background is dark and out of focus.

PHASE
THREE

META STREAMING

META STREAMING, two words that will gain value in the metaverse, our experiences will be the next step of how to live the cinema, television, interaction.

MEST FEATURES

Mest will be a **transmission and distribution channel** for any audiovisual content.

Our original content **can be enjoyed in the Mest movie theaters in the Metaverse**, with your subscription to Mest you will have access to the theaters, if you do not have your membership, you can access for an additional value through a temporary ticket.

The original and exclusive content offered in Meta Streaming **includes animated series where the NFTs will be protagonists**, not only as animated characters, but also in the way they access the platform and the proposed content.

MEST CHARACTERISTICS

Original and exclusive content, 360, interactive productions, where the user can be the protagonist and guide a course at the end of the production. Are you ready to define the course of a movie or series?

Generate alliances with current Streaming platforms. The objective of these alliances is that all audiovisual content can be found in one place within the metaverse: in Mest.

MEST

PHASE
FOUR

04

PHASE
FOUR

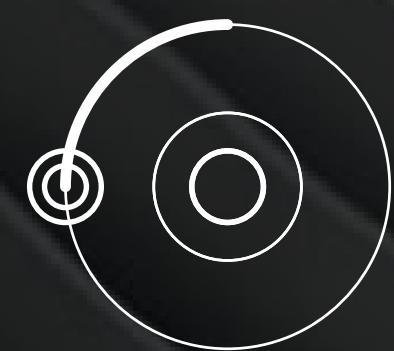

5 D CINEMA

MEST will bet on an idea that will **revolutionize the way of enjoying cinema** and its different experiences.

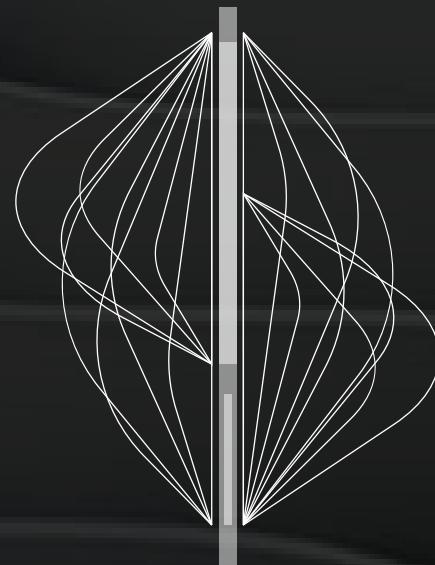

Mest's 5D Cinema aims to be a place designed for immersion and interaction.

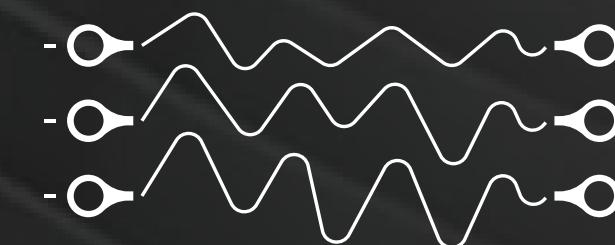

CHARACTERISTICS

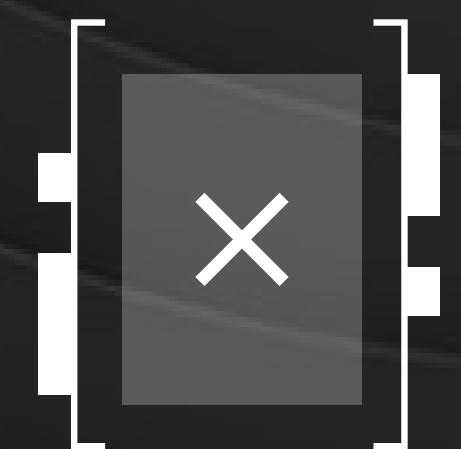

360 Content: Mest's 5D cinemas will have virtual reality glasses that will provide 360° movie viewing.

Tesla Suits: For a greater experience, Mest's 5D movie theaters will provide haptic suits according to the audiovisual content being played, so you will be able to feel a great amount of experiences.

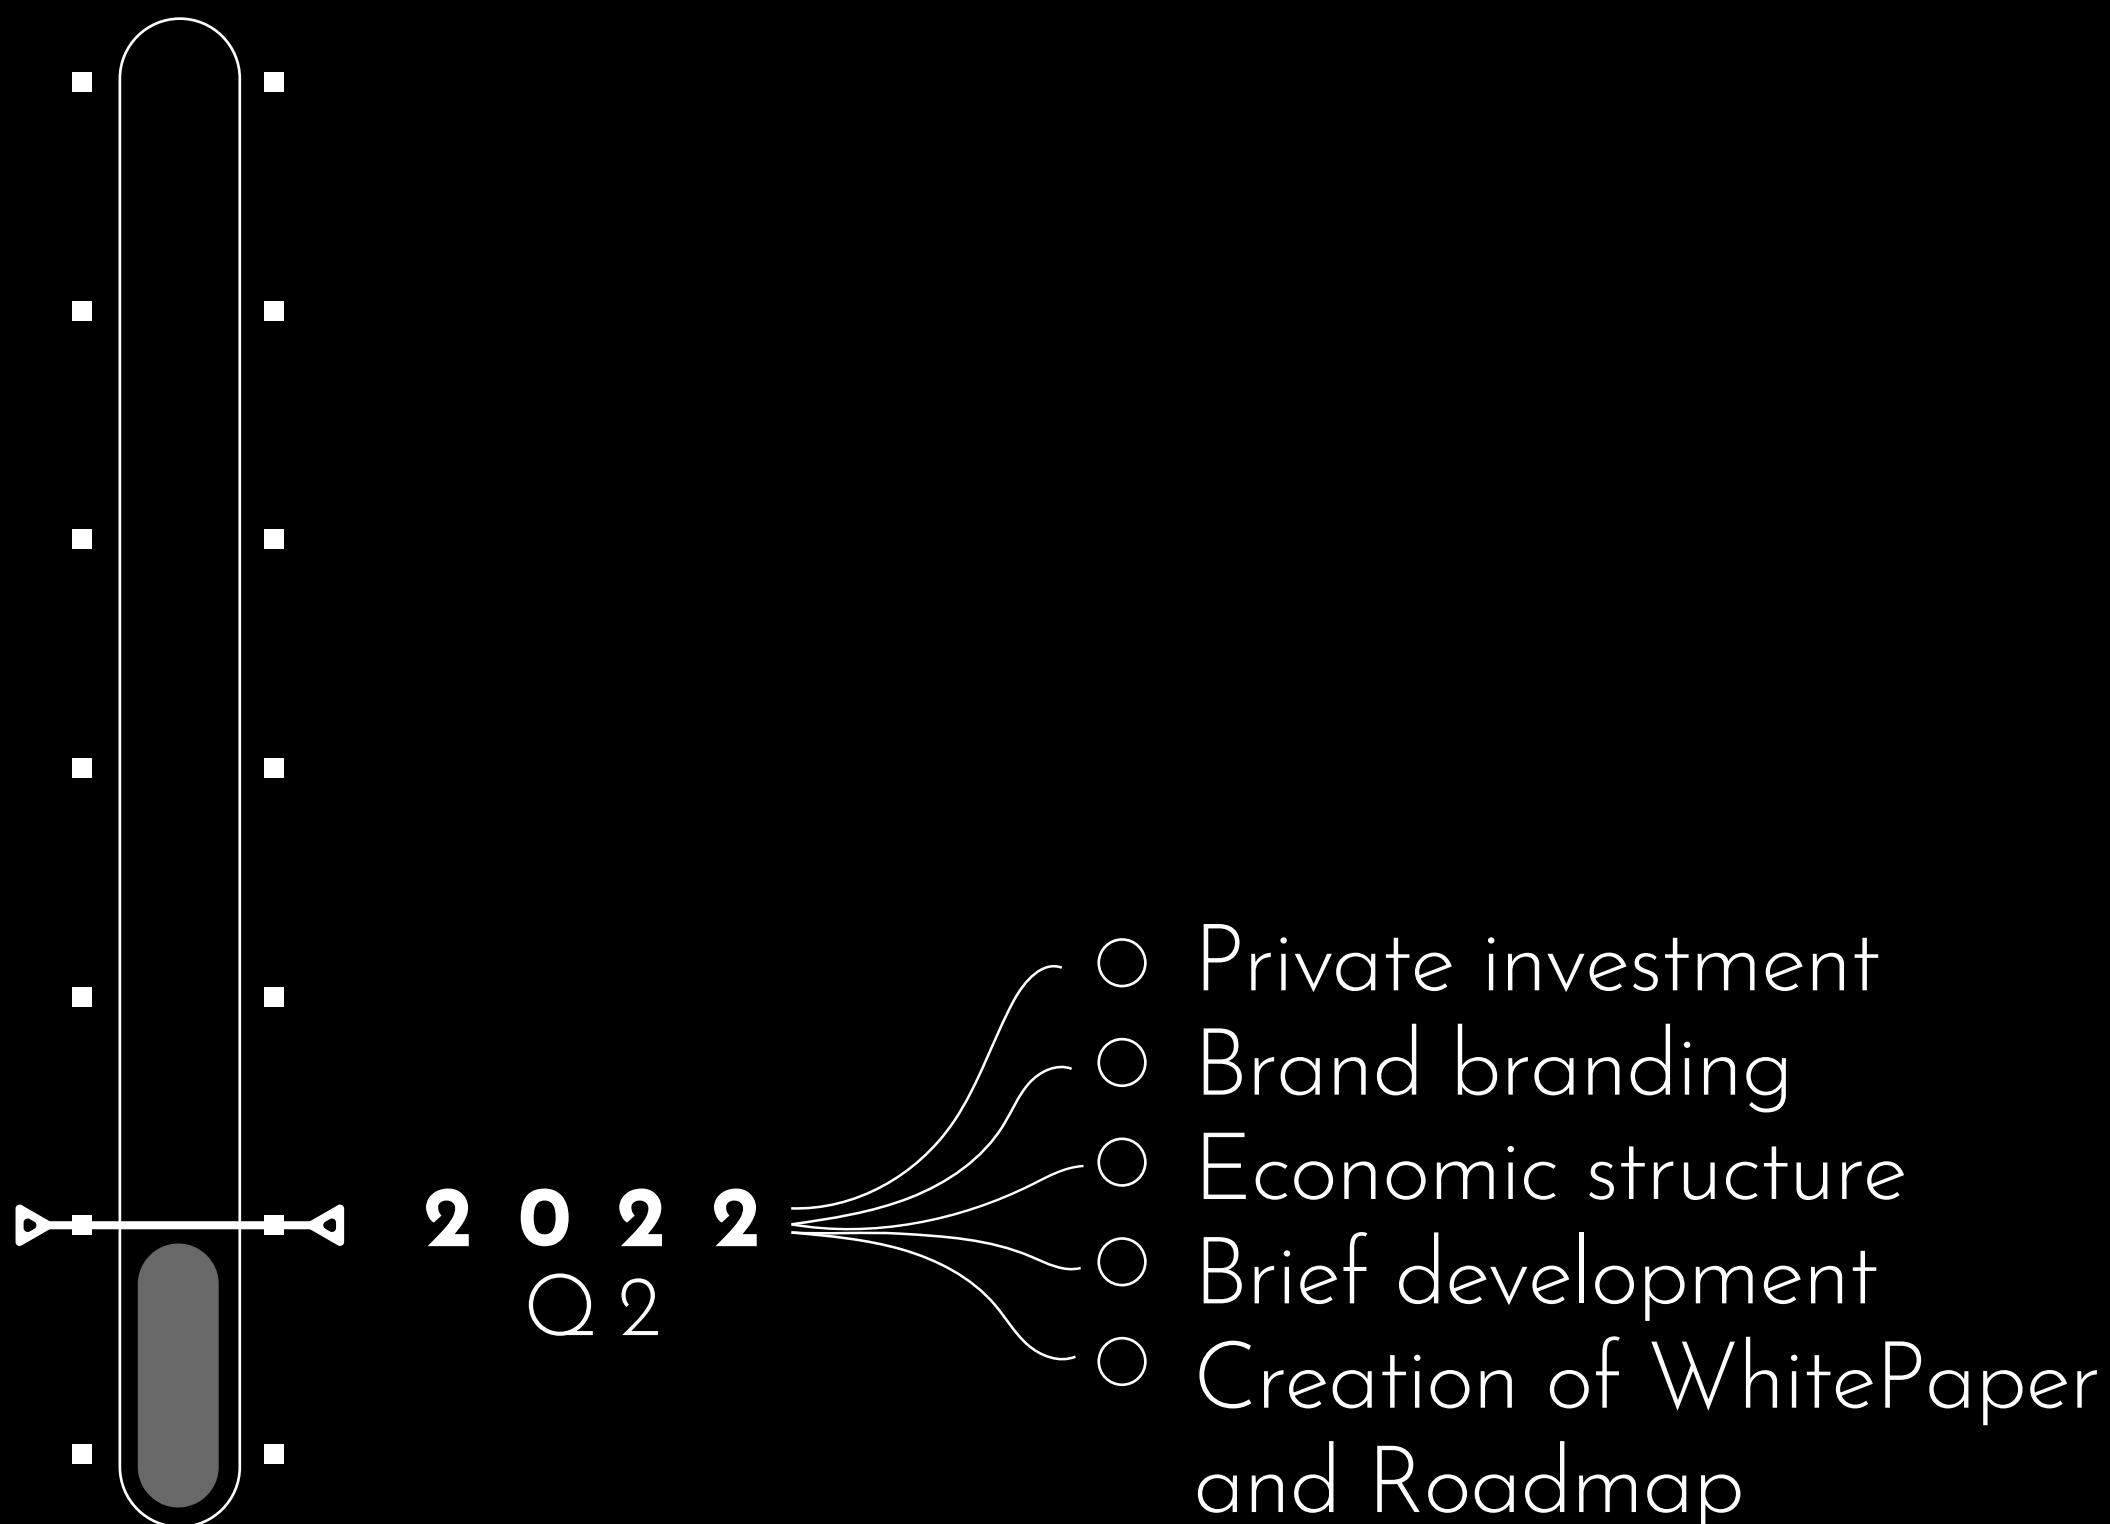

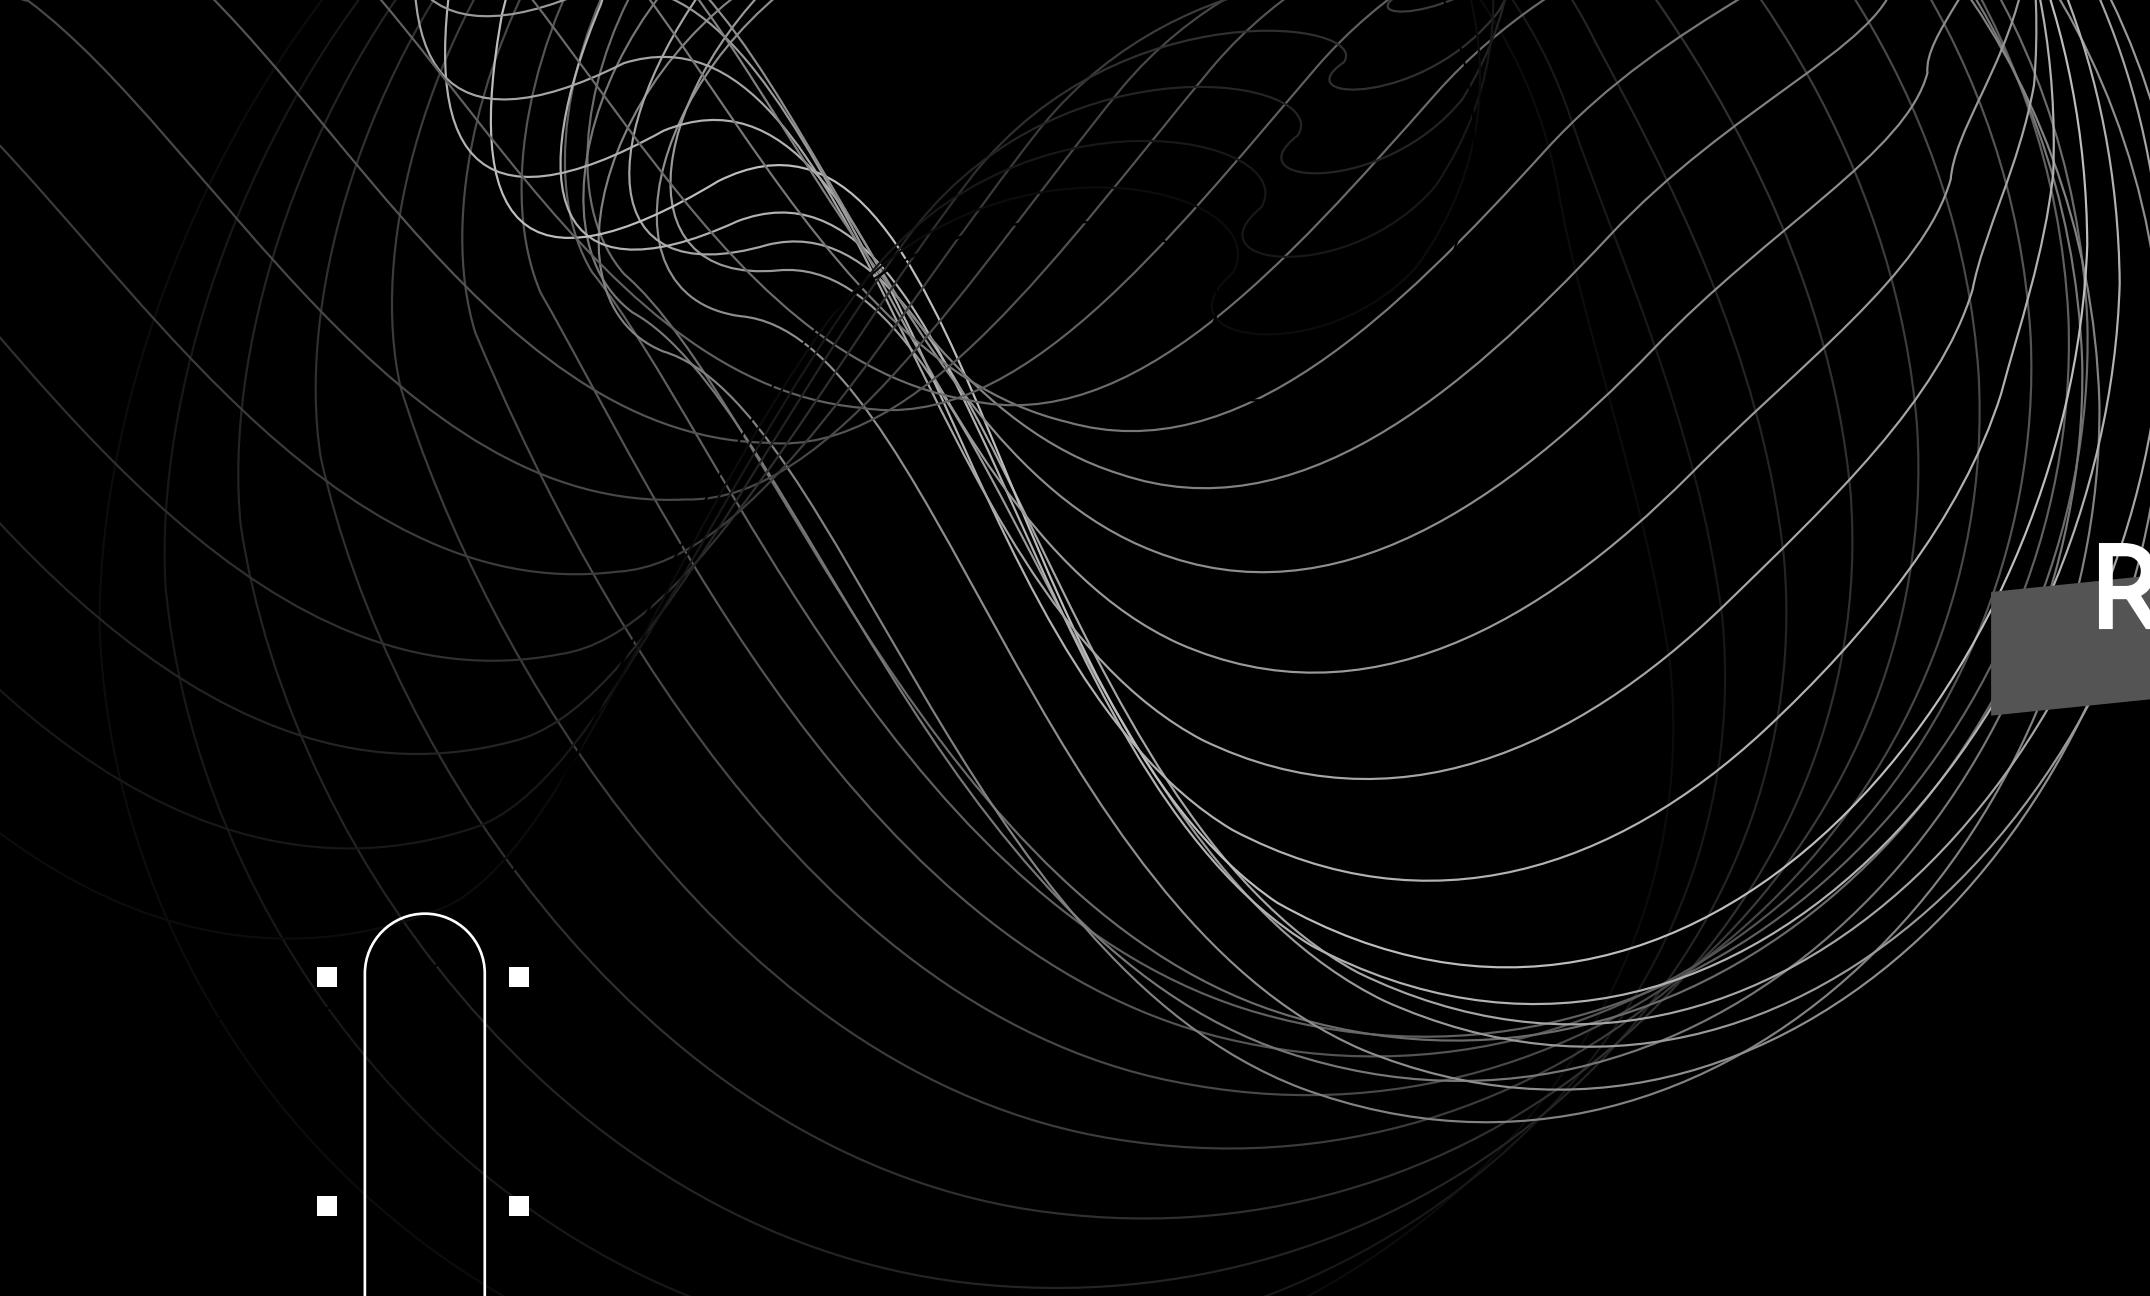

Sound: Mest believes in the power of sound as an additional tool in the immersive experience, for this reason, Mest's 5D cinemas will have a fully immersive sound and better quality to provide an incredible experience.

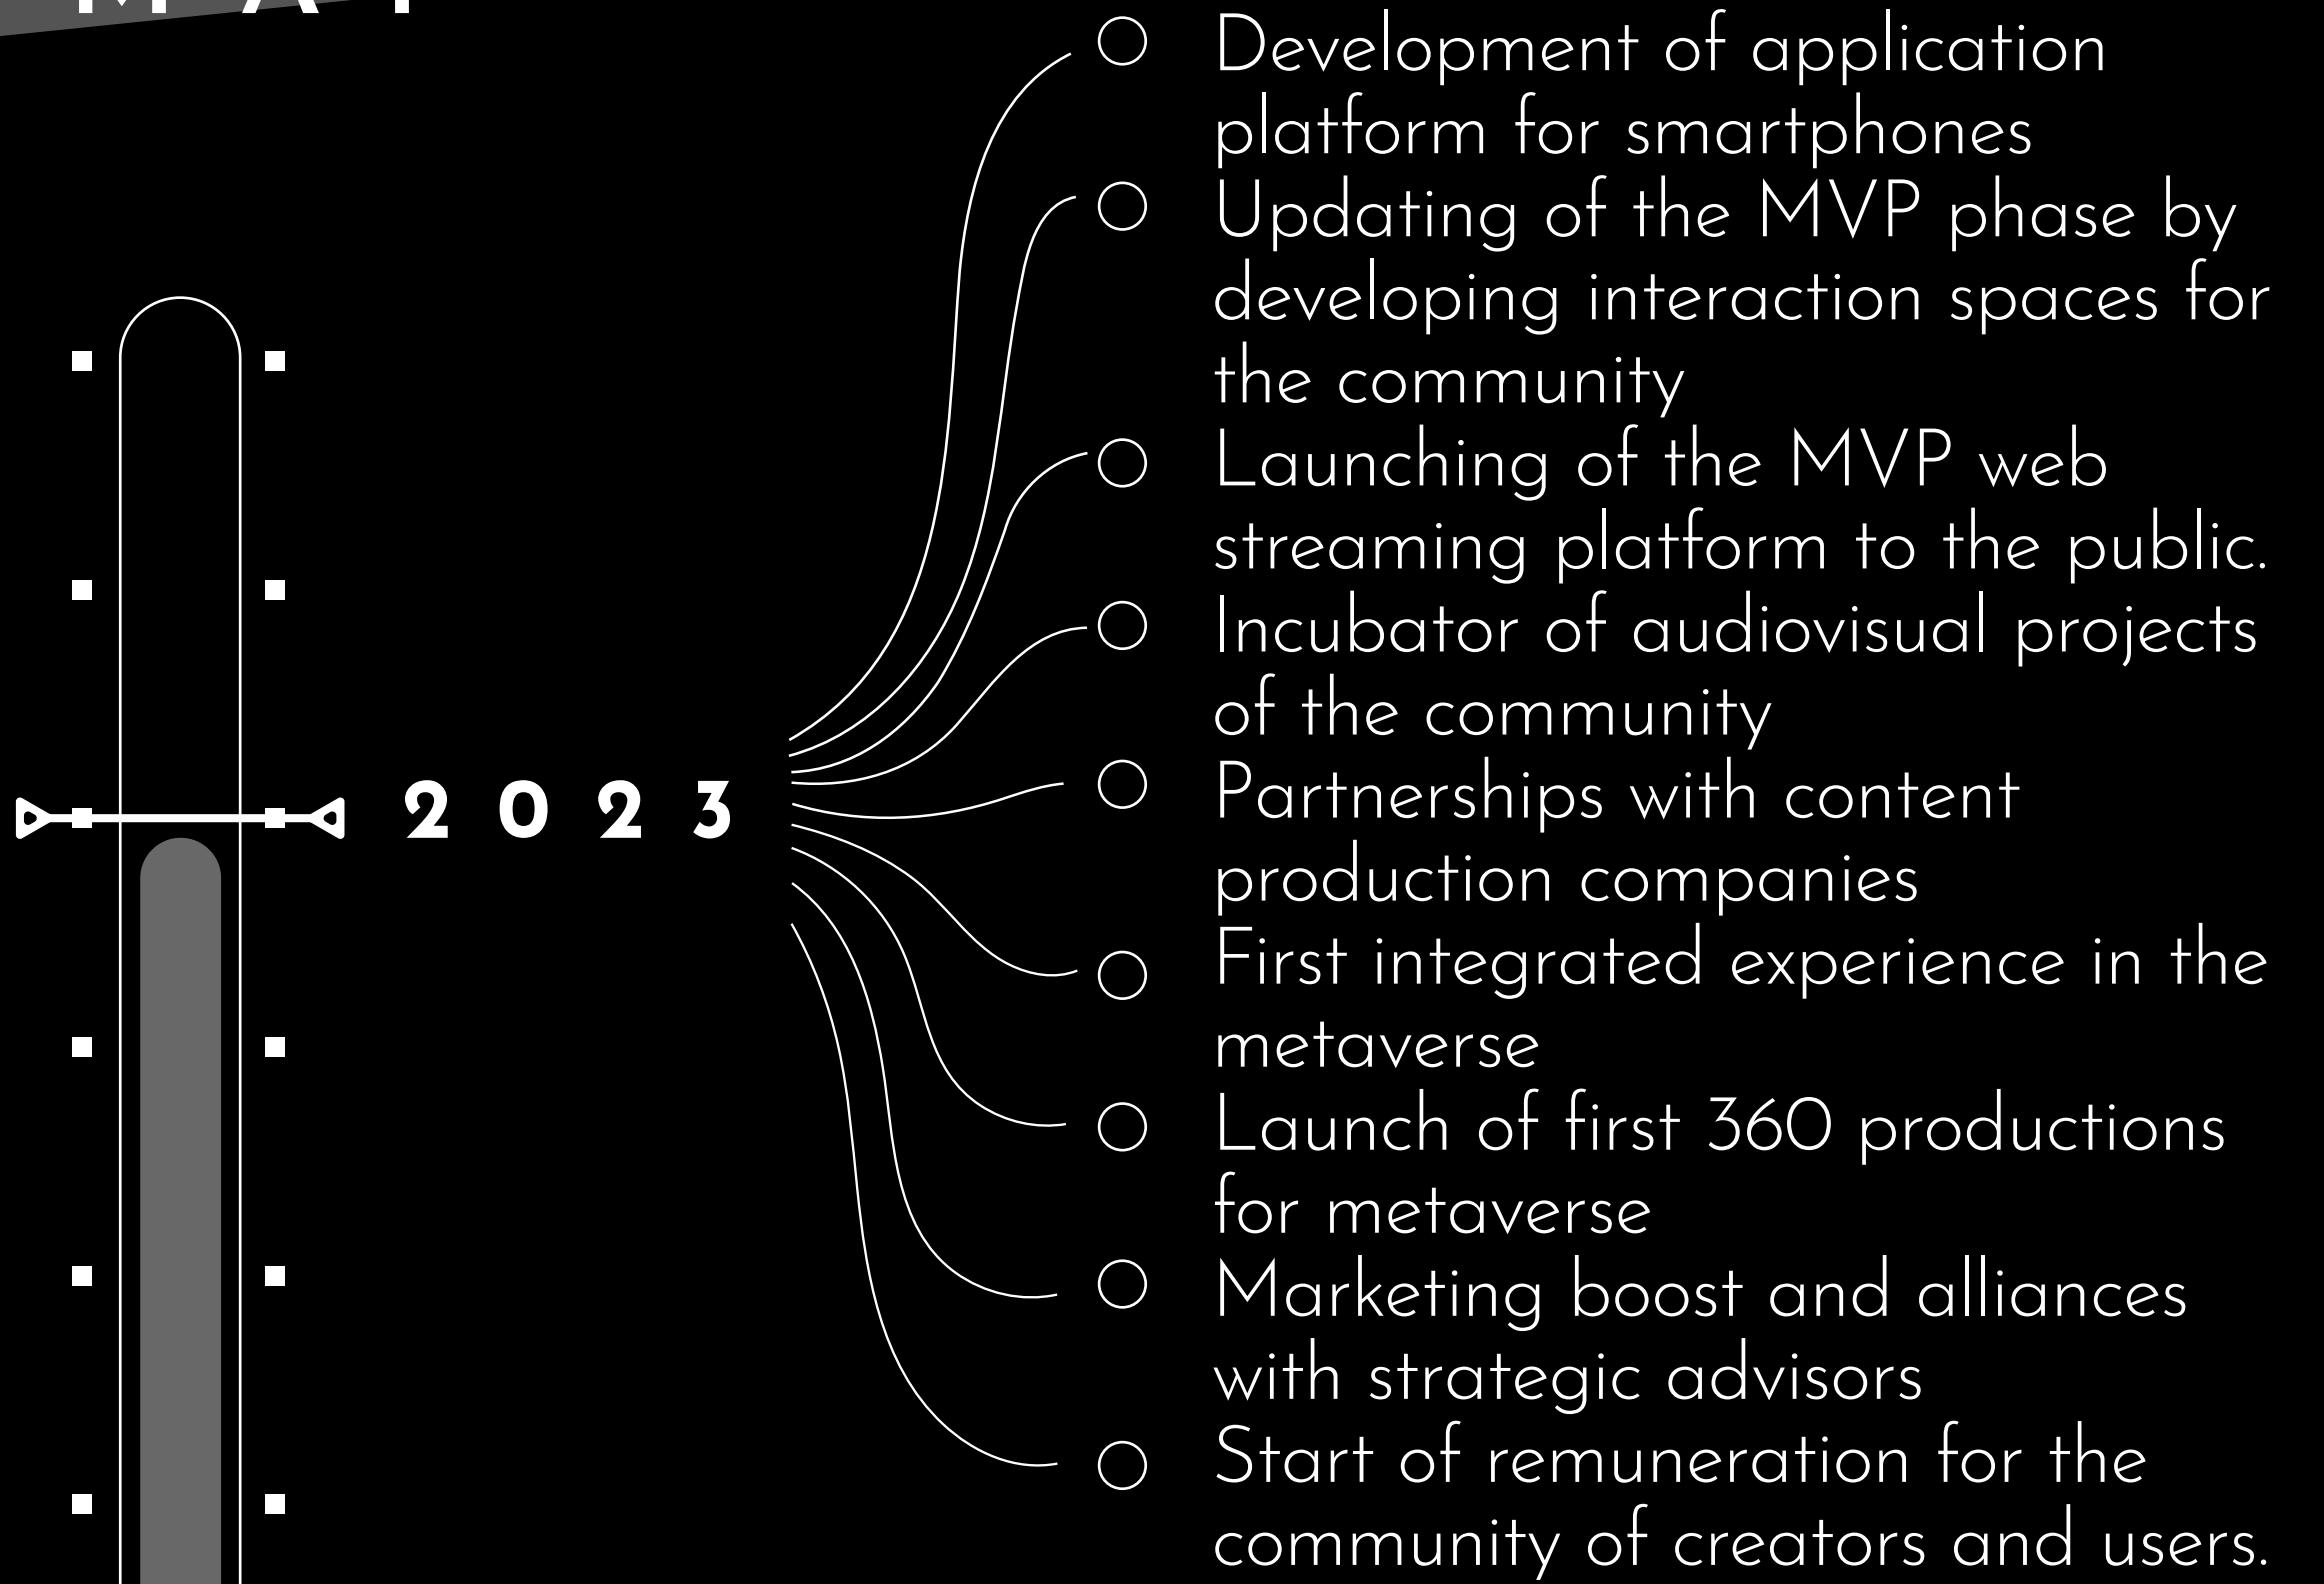

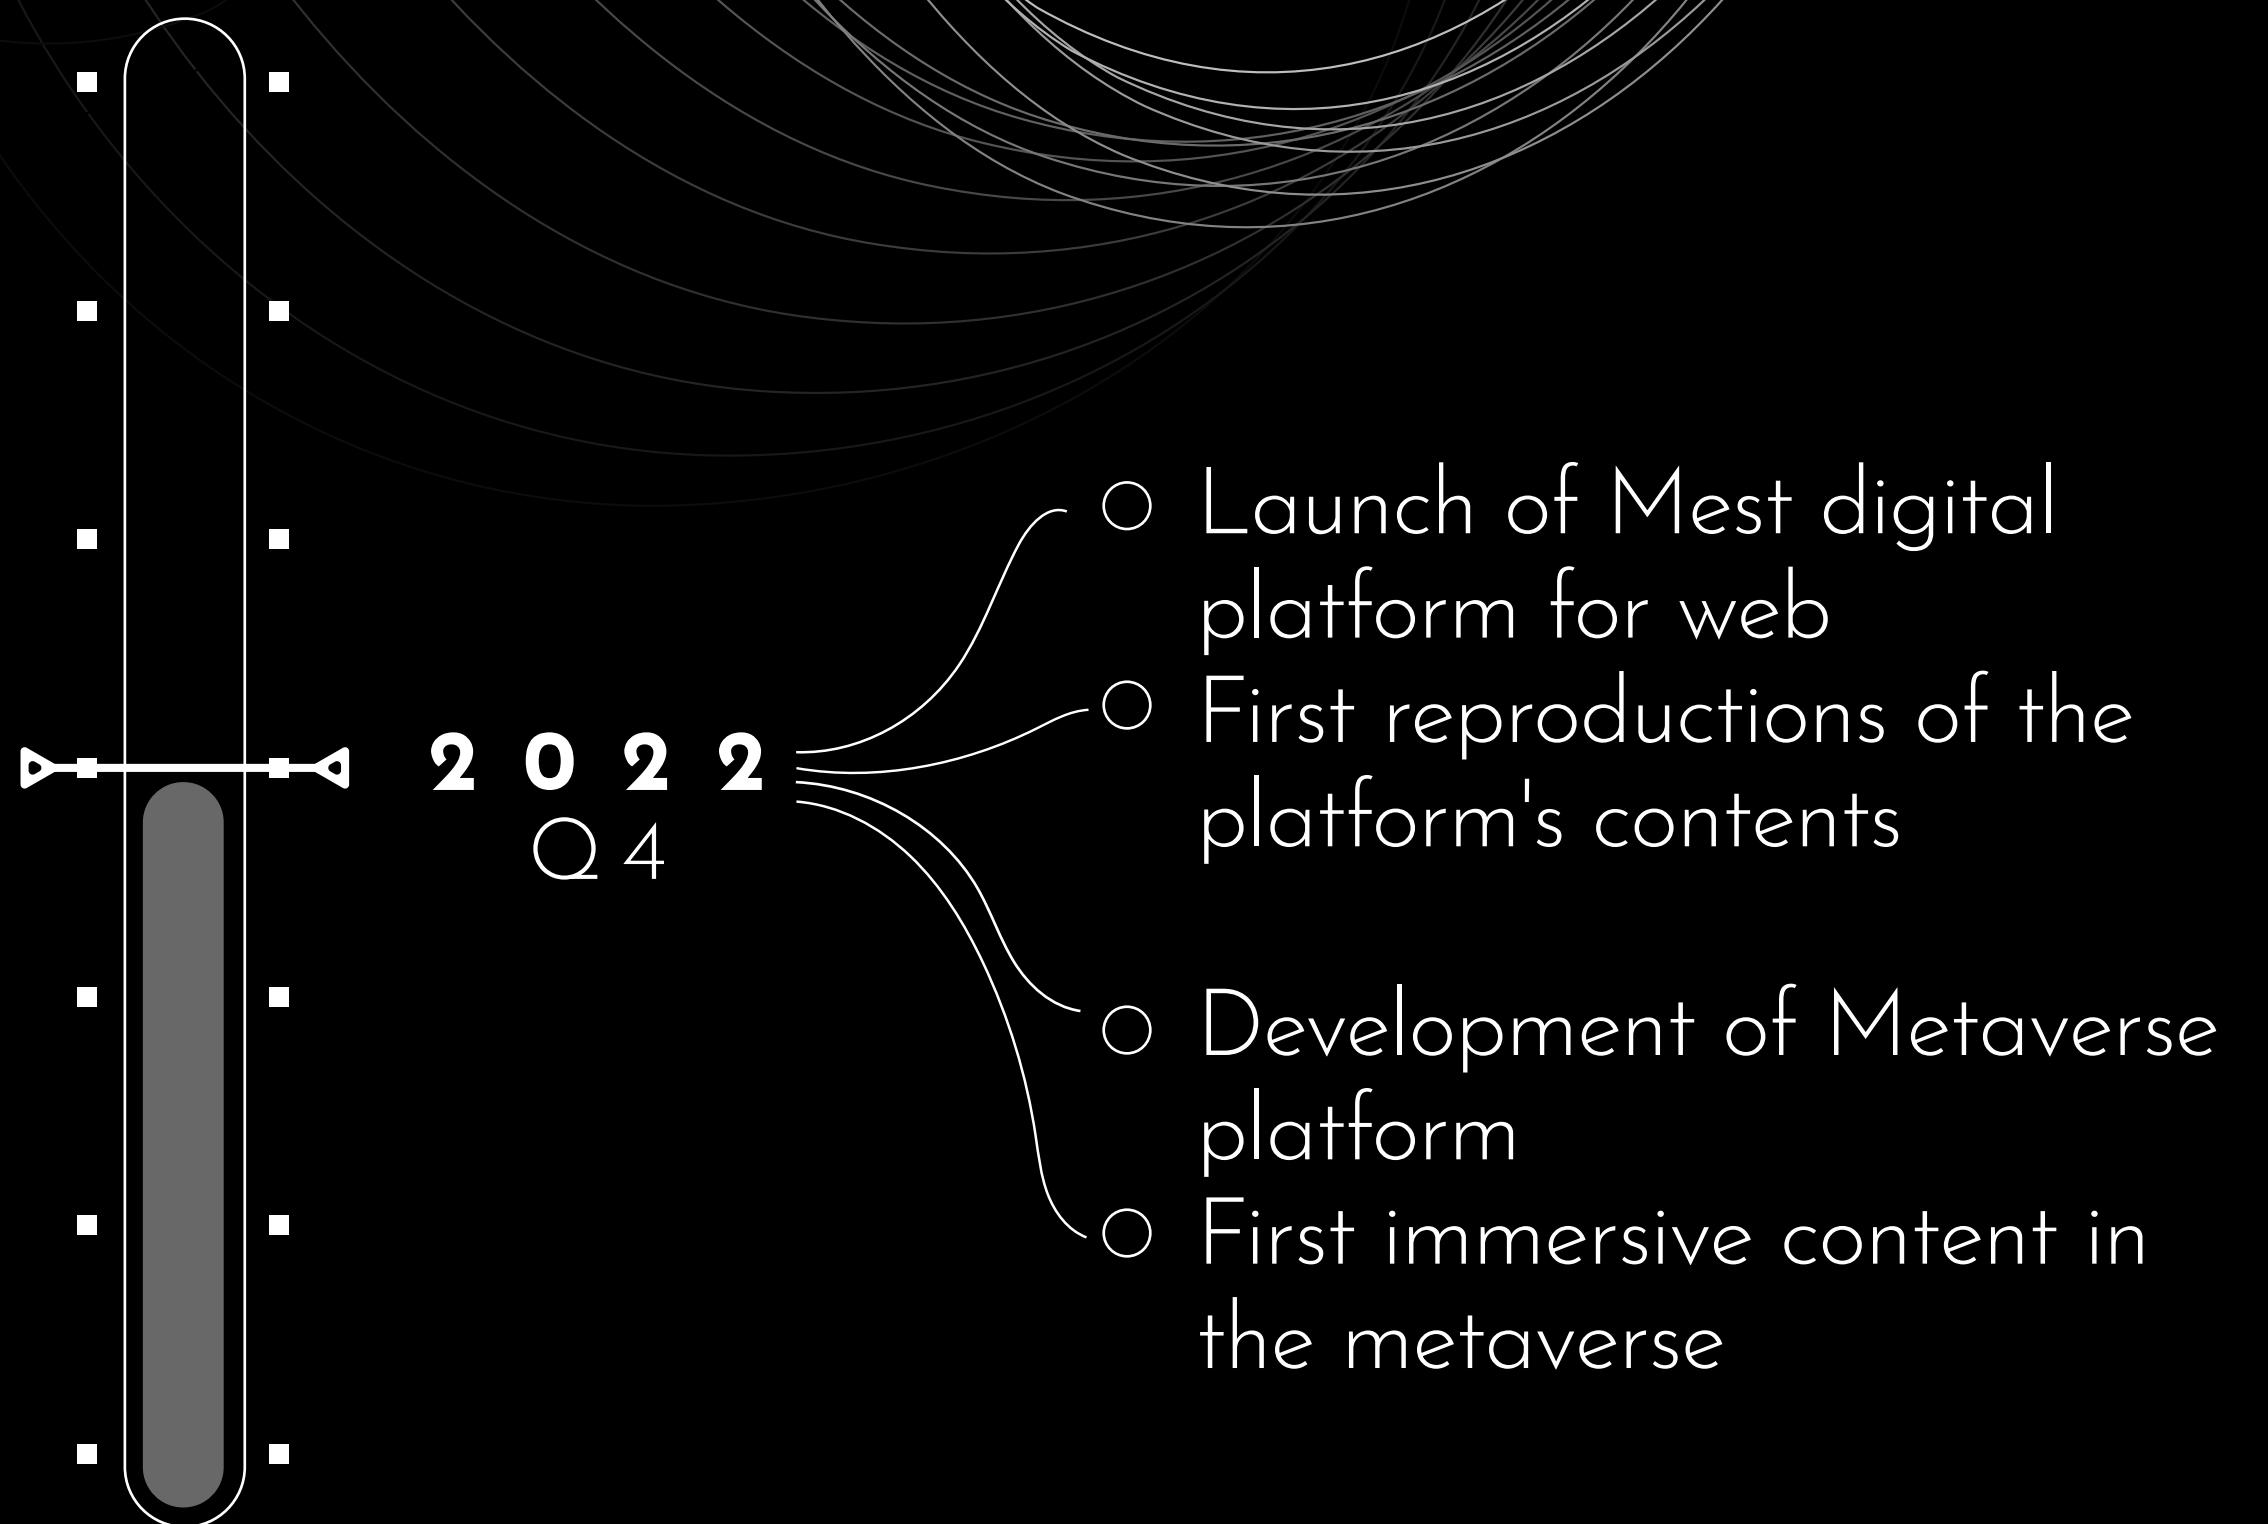

360 Seats: Conventional cinema chairs are a thing of the past. Mest's 5D theaters will have chairs fully adapted for a 360 incursion.
